GO KART · SKU GT3RS-FS

GT-RS Full-Size Electric Ride-On Car

A full-size, wide-body electric ride-on car with an oversized rear wing, open cockpit and illuminated front and rear details. Made to order in any colour.

FORMAT	STYLING	COCKPIT	BUILD
Full-size electric ride-on	**Wide body + rear wing**	**Open, with steering**	**Made to order, ~15 days**

The **GT-RS Full-Size Electric Ride-On Car** is the statement piece of our range. It has a **wide-body silhouette**, a **towering rear wing**, **illuminated front and rear details** and an **open cockpit** with steering controls. It is a full-size, track-inspired car that turns heads before it moves, and it is built to order in the colour and livery you choose.

Watch the factory videos below to see it driving, then read on for how buyers use it.

The GT-RS is **made to order**. Before production starts, we confirm with you:

Key features

Wide-body stance. Flared arches and a low, wide track give it the planted look of a modern GT race car.

Oversized rear wing. The tall swan-neck wing is the first thing people notice, and the photo they take.

Lit front and rear. Illuminated headlights and tail-light bar make it stand out at evening events and in showrooms.

Open cockpit. Easy to get in and out of, which suits venues, exhibitions and guest experiences.

Your colours, your livery. Custom paint plus stripe, number and decal themes, confirmed with you before production.

Built to order. Each car is made to your approved specification in about 15 days.
